# UTILIZATION OF THE MILK ORDINANCE AND CODE

# RECOMMENDED BY THE U. S. PUBLIC HEALTH SERVICE

The activities of the Public Health Service in milk sanitation began at the turn of the century with studies on the role of milk in the spread of disease. This work led to the conclusion that effective public health control of milkborne disease requires the application of sanitation measures throughout the production, handling, pasteurization and distribution of milk. These early studies were followed by research to identify and evaluate sanitary measures which might be used to control disease, including studies which led to improvement of the pasteurization process.

To assist States and municipalities in initiating and maintaining effective programs for prevention of milkborne disease, the Public Health Service, in 1924, developed a model regulation, known as the "Standard Milk Ordinance," for voluntary adoption by State and local milk sanitation authorities. To provide for uniform interpretation of this Ordinance, an accompanying Code was published in 1927. This model milk regulation, now titled the Milk Ordinance and Code--1953 Recommendations of the Public Health Service, has been revised 12 times, since 1924, with the aid of a national advisory committee in order to incorporate new knowledge into public health practice.

The PHS recommended Milk Ordinance and Code is currently the basis of the milk sanitation law or regulations of 37 States. Its provisions have been voluntarily adopted by 1,435 municipalities and 512 counties located in 40 States. Included are 71 cities of over 100,000 population and 72 cities with populations between 50,000 and 100,000. Almost 110 million people in this country live in jurisdictions utilizing the provisions of the PHS Milk Ordinance and Code.

The Milk Ordinance and Code--1953 Recommendations of the Public Health Service is the basic standard used in the voluntary Cooperative State-PHS Program for Certification of Interstate Milk Shippers. It is incorporated by reference in Federal specifications for procurement of milk and milk products, is used as the sanitary regulation for milk and milk products served on interstate carriers, and is recognized by public health agencies, the milk industry, and many others as a national standard for milk sanitation.

The States and their political subdivisions which have utilized the PHS Milk Ordinance and Code as the basis of their milk sanitation law or regulations, and the number of county and municipal adoptions by States, follow in both tabular and chart form. (Attachments A through D.)

Attachment E presents, in tabular form, a Chronological Summary of Adoptions of Milk Sanitation Laws or Regulations Based on the Milk Ordinance and Code Recommended by the Public Health Service.

Attachment F presents a Geographical Summary of Adoptions of Milk Sanitation Laws or Regulations Based on the Milk Ordinance and Code Recommended by the Public Health Service, giving population coverage by States.

Attachment G includes a detailed List of American Communities in Which the Milk Ordinance Recommended by the Public Health Service Is in Effect. The percentage of market milk which is pasteurized is indicated immediately following the names of those communities for which this information has been reported. Included in this list are nine States, 196 counties, and 752 municipalities which require compulsory pasteurization of all market milk. The total milk supplies of 90 counties and 280 municipalities are pasteurized on a voluntary basis.

Attachment H presents a List of States, Counties, and Municipalities in the United States Which Require Compulsory Pasteurization of Market Milk.

# LIST OF AMERICAN COMMUNITIES IN WHICH THE MILK ORDINANCE RECOMMENDED BY THE PUBLIC HEALTH SERVICE IS IN EFFECT

## KEY TO FIGURES AND SYMBOLS APPEARING IN LIST

Figures (including question marks) after communities indicate percent of supply reported to be pasteurized.
Figures in parentheses indicate the years of adoption and revision of ordinance.
* - Compulsory pasteurization of all market milk.
** - Compulsory pasteurization of all market milk except certified.
# - Municipality located in a county that has also adopted the ordinance.
s - Following year of adoption or revision indicates that the short enabling form was adopted.
x - Municipalities with over 100,000 population (1960 census).
y - Municipalities with population of 50,000-100,000 (1960 census).
c - 1953 edition of the ordinance in effect.

### cALABAMA

1953 ed. adopted April 18, 1956, as regs. by State B.H. Enforced only in communities adopting. (1927 ed. in 1929; 1939 ed in 1939, rev. 1942)

Sitka, 100
Skagway, 100
Wrangell, 100

### cARIZONA

State Legislature adopted 1953 ed. as State law on 7-14-56 (effective 7-14-57), giving authority to State Dairy Comm. to prescribe rules and regulations. Enforced State-wide by municipalities and counties as enforcing agents of the State. Under Act of 3-29-51 (eff. 7-1-51), 1939 ed. was adopted as State law, with State-wide enforcement by State Dept. of Public Health. (Under 1931 State law and State Dairy Comm. regs., graded milk required to comply with 1939 ed. Enforced State-wide by State Dairy Comm. except where local adoptions of PHS ordinance were in effect bef. 1946.)

Municipal Adoptions:

xPhoenix, 100* (28,41)
Yuma, 100* (29, ?)

### cARKANSAS

Under State law (6-12-41) and State B.H. regs. (1944, amended 1-27-55), graded milk must comply with 1939 ed. which is enforced by all towns and cities.
(Under State law of 2-13-35, municipalities authorized to adopt short form of 1934 ed.)
State B.H. regs. (10-22-59) based on 1953 ed.

HAWAII

1939 ed. adopted 2-21-45 as regs. by Terr. B. of H., with two supergrades; amended 2-21-48 with only one supergrade allowed. Enforced Territory-wide by Terr. B. of H. Leg. in 1945, and State-wide (beg. in 1959) by State D. of H. As of May 1956, 99.3 percent of milk sold in Territory was pasteurized.

cIDAHO

Under 1941 State law graded milk required to comply with 1939 ed. Under 1945 State law, State H.D. regs. on pasteurn. plants same as 1939 ed. with some downward revisions. The 1953 Code was adopted in July 1953 (with 1 year given for full compliance), on a vol. compliance basis for areas outside of cities or districts which have not adopted the Code as a local ordinance.

cILLINOIS*

1939 ed. adopted by State H.D. Aug. 1939 (revised Feb. 1946 and Jan. 1950) (1) as minimum pasteurization plant requirements under Act of 7-24-39 (amended 6-30-45,8-11-49, and 4-11-51), (2) as minimum requirements for dairies using grade A label under Grade A Milk Act of 7-19-39 (amended 6-17-45 and 4-11-51). State H.D. licenses all grade A milk plants and checks local milk sheds.

State law, effective 7-1-57, to be enforced State-wide, requires all milk and fluid milk products to be grade A pasteurized. Requirements based on provisions of 1953 ed.

cIOWA
Act of 4-7-47 required pasteurization of all except grade A raw milk after 4-15-49. State law (1955) requires Secretary of Agriculture to promulgate standards for grade A pasteurized, pasteurized, and grade A raw milk conforming to 1953 ed. State Dept. of Health surveys and certifies milk labeled grade A to Sec. of Agr., who enforces standards State-wide.

State P.H.regs.(1946) required grade A milk to be from areas which had adopted 1939 ed. State law (1951) required all grade A milk and milk products to comply with PHS standards adopted as identical regs. by State Dept. of Agr. and State Board of Health. State law (1955) requires Sec. of Agriculture to adopt as regs. the 1953 ed. Incorporated cities may enact ordinances equivalent to State regs.

[1]Enforces local ordinance only in regard to raw milk for pasteurization for use by other cities.
[2]Requires pasteurization of all milk except goat milk.
[3]Enforcement discontinued.
[4]Includes Good Creek (29,40).

cUTAH

Under State law (3-8-45), State Board of Agriculture regs. (1945,1946,1953) require grading in accordance with latest ed. of PMO Code, and pasteurization of all milk after 7-1-47. Bill to legalize sale of retail raw milk passed in 1959. Regs. enforced State-wide by SDA and local sanitarians.

ATTACHMENT H

January 1963

# LIST OF STATES, COUNTIES, AND MUNICIPALITIES IN THE UNITED STATES WHICH REQUIRE COMPULSORY PASTEURIZATION OF MARKET MILK

## KEY TO SYMBOLS APPEARING IN LIST

* Areas requiring pasteurization of all market milk except Certified (1 county and 196 municipalities).
# Certified raw permitted only on doctor's prescription (2 municipalities).
All others listed require all market milk to be pasteurized (9 States, 220 counties, and 1130 municipalities).

Not listed are many hundreds of additional jurisdictions which do not require compulsory pasteurization but in which all market milk is pasteurized.
